DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1.0	15 September 2026	Initial release.	Dr. Alfred Ang
2.0	15 September 2026	Finance task automation scenarios.	Dr. Alfred Ang
2.1	16 September 2026	Eight finance labs with mock data and skills.	Dr. Alfred Ang
3.0	17 September 2026	Rebuilt on the Claude Style design shared with the Claude Code Masterclass, reusing its Claude product family and AI evolution slides. Replaced the eight finance labs with three topics — Cowork Fundamentals (Live Artefacts), Tools and Skills (Google Drive and Gmail connectors plus a reusable daily-brief automation) and Claude Projects (assembling everything into one shared workspace) — delivered as six coherent labs on one fictitious company, Meridian Capital Partners Pte Ltd. Ready-to-paste prompts added to the slides, Learner Guide and labs, and each lab is now issued in both Markdown and PDF.	Dr. Alfred Ang
3.1	17 September 2026	Added a document-processing lab as the new Lab 1 — 126 synthetic Meridian supplier invoices and expense receipts that Claude reads into a CSV and files into month folders — so the course now opens on the work Cowork is really for. Seven labs in total. Topic 2 now teaches the three layers of a skill, the Do / Verify / Save / Update process and /skill-creator. All scenario data moved to FY2025 for one	Dr. Alfred Ang

		consistent year.

Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	1 day · 7.5 instructional hours per day (7.5 hours)
Daily Timing	9:00 am – 6:00 pm (1-hour lunch; tea breaks within training time)
Mode	Instructor-led, hands-on practical labs
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Set up the Cowork desktop workspace and have Claude process a folder of documents into a structured summary.
- LO2: Build, save and download a Live Artefact, including an interactive sales dashboard from supplied data.
- LO3: Connect the Google Drive connector so Claude can read finance data held outside the chat.
- LO4: Refresh a Live Artefact from connected data and send an approved summary with the Gmail connector.
- LO5: Turn a verified routine into an Agent Skill with /skill-creator, update it, and explain a skill's three layers.
- LO6: Assemble a Claude Project that holds the data, instructions, skill and dashboard as one reusable team workspace.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.
