Trainer evidence and release gates

- Lab 1: inventory confirms 14 source rows, one duplicate, one pending item; source hash unchanged.
- Lab 2: August approved revenue S\$46,700, expenses S\$16,500, net S\$30,200; 12 eligible rows.
- Lab 3: September approved revenue S\$48,100, expenses S\$16,960, net S\$31,140; one approved workbook and one Outlook test email.

Learning reinforcement

Learners compare workbook formulas and independent controls, then use a human gate before the approved report enters the delivery folder. No real finance or recipient data is needed.
